

Exhibitor Packages and Sponsorships

City of Arts & Science
Valencia, Spain

Why Exhibit?

Solar + Storage España offers exhibitors an efficient and sustainable platform to grow their client base by meeting new and existing clients, and networking with peers from the industry.

Become an exhibitor and showcase your latest products and services to an audience of decision-makers from all segments of the solar and storage industries.

The team of Solar + Storage España will support all exhibitors before, during and after the show, to make exhibiting as easy as possible.

Benefits for Exhibitors

Profit from an easy exhibition set-up with **turn-key booth building** already included. All exhibition booths are equipped with booth walls and headers, table, chairs, standard carpet, lighting and electricity. Additional furniture can be booked separately.

Furthermore, all exhibitors will be **promoted on the event website** featuring an entry on the exhibitor list, company profile (150-word description) within the exhibitor catalogue and an entry on the floorplan including the company logo.

All exhibitors receive **a limited amount of customer invitations as well as access to networking events**, with a program dedicated to the growing Spanish and Iberian solar and energy storage markets. Listen to high level discussions from key-stakeholders and attend unique networking opportunities during the two-day exhibition and conference.

About the Organizers

RE+ Events is a global event management organization with a focus on the clean energy industry. Our flagship event, RE+ (formerly Solar Power International - SPI), is largest renewable energy event in North America. The RE+ Events portfolio also includes regional events within the United States focusing on trends and policies in specific states or regions, as well as international events that bring together clean energy leaders in up-and-coming markets across the world. RE+ Events is co-owned by the Smart Electric Power Alliance and the Solar Energy Industries Association.

pv magazine is a monthly trade publication launched for the international photovoltaics (PV) community in the summer of 2008. The current print run, based on qualified circulation, is 35,000. The international website, www.pv-magazine.com launched in 2010. Regional news websites include: pv magazine Australia, pv magazine China, pv magazine France, pv magazine Germany, pv magazine India, pv magazine Latin America, pv magazine Mexico, pv magazine Spain and pv magazine USA. With its independent, technology-focused reporting, pv magazine concentrates on covering the latest solar PV news, topical technological trends, and worldwide market developments.
