

MI HEALTHY CLIMATE CONFERENCE

APRIL 22-23, 2025
DETROIT, MI

*Join the Michigan Department of Environment, Great Lakes, and Energy (EGLE) for the **2025 Michigan Healthy Climate Conference** on April 22-23 at the Huntington Place in Detroit.*

Governor Gretchen Whitmer committed Michigan to carbon neutrality by 2050 and in April 2022 released the MI Healthy Climate Plan (the Plan) to chart Michigan's path forward. Michigan is leading the way in the energy transition. We are dedicated to reaching our interim 2030 goal of reducing greenhouse gas emissions by 52% from 2005 baselines, in an equitable manner. While we tackle this challenge with great urgency, we also find hope and inspiration in the collective community taking climate action in Michigan. The Plan builds off the leadership of tribal communities and cities and towns across Michigan, in addition to the private sector.

As we continue working together toward a carbon neutral Michigan, EGLE is hosting this 1.5-day MI Healthy Climate Conference to report on the progress of the Plan, build connections and empower collaboration, leverage resources and mobilize opportunities, and prioritize our next steps towards reaching the goals of the Plan.

Under the theme “**Road to 2030,**” speakers will share about their success stories, challenges, funding opportunities, technical assistance, and other actions they are taking in the six priority areas of the Plan:

- **Commit to environmental justice and pursue a just transition**
- **Clean the electric grid**
- **Electrify vehicles and increase public transit**
- **Repair and decarbonize homes and businesses**
- **Drive clean innovation in industry**
- **Protect Michigan’s land and water**

The agenda includes time for inspiring plenary talks, breakout sessions, interactive office hours, and several networking opportunities, including a reception at the end of the first day. We are also using an online event app to help attendees take their networking to the next level.

More people than ever before - across our Great Lakes state - are engaged in this important climate work to ensure a cleaner, healthier future for all. Join us on the road to 2030 to connect with thought leaders, build and strengthen community, and discover solutions and opportunities to implement the MI Healthy Climate Plan. Be a part of the solution and register today!

REGISTRATION DEADLINE: APRIL 13

General Admission: \$190 through March 18
(\$225 after April 16)

Non-Profit/Government: \$90 through March 18
(\$125 after April 16)

Tribal/Community Members/Students: \$50
