- Housekeeping
- Moneymangement
- Social media skills
- Leisure activities

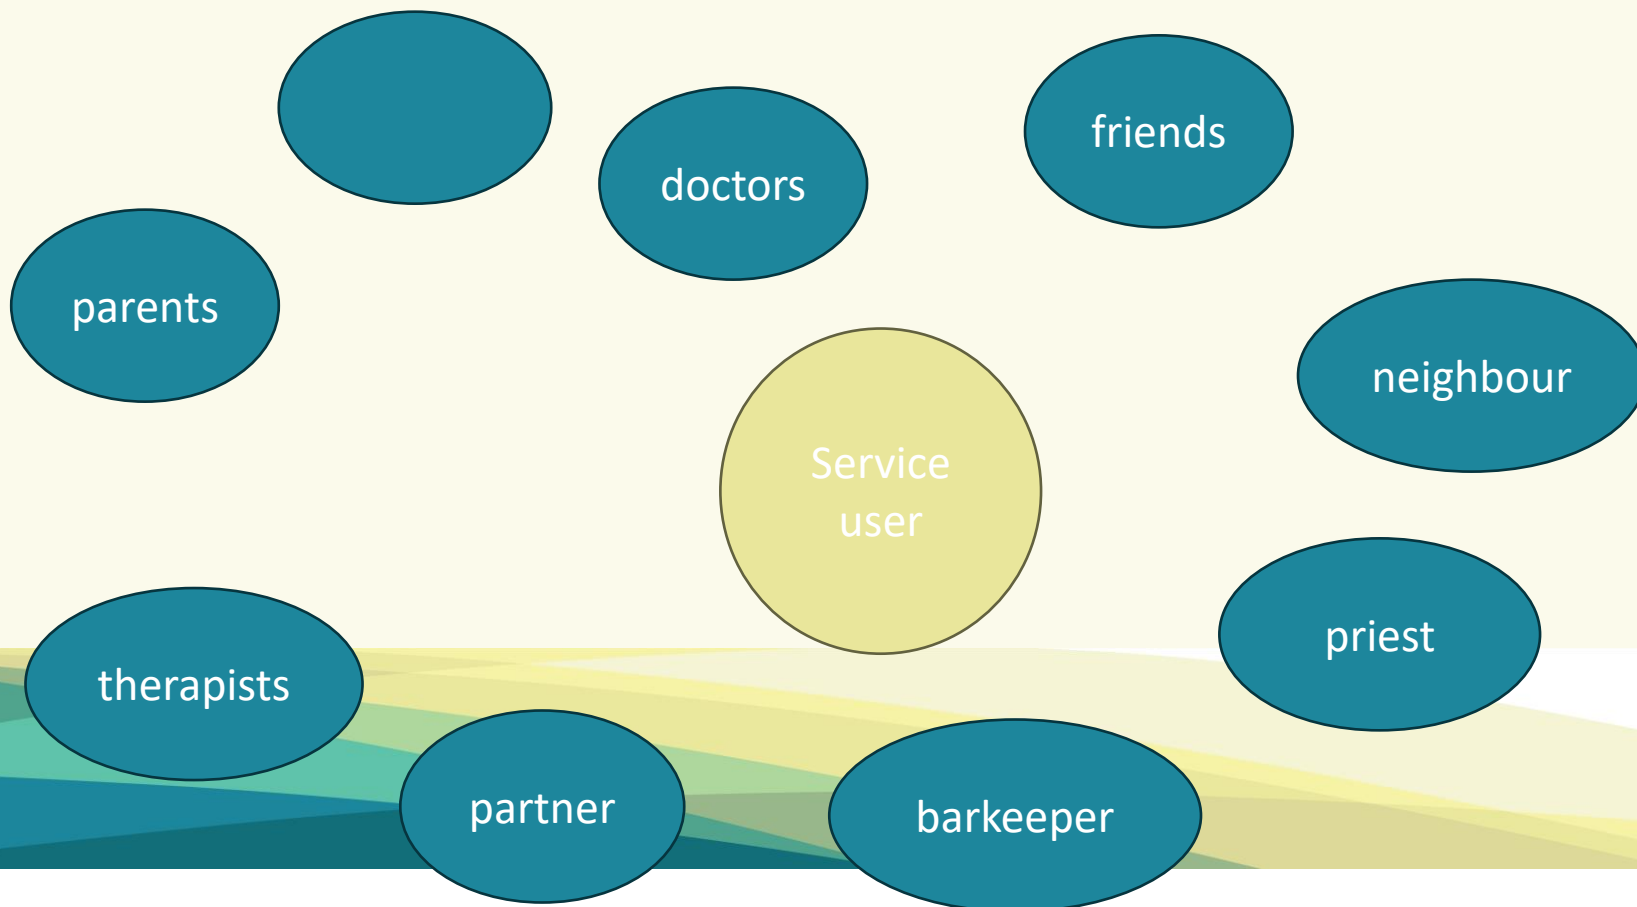

# SOCIAL NETWORK

- Family
- Friends
- Partner
- Children
- Neighbours
- Colleagues
- Care responsibilities

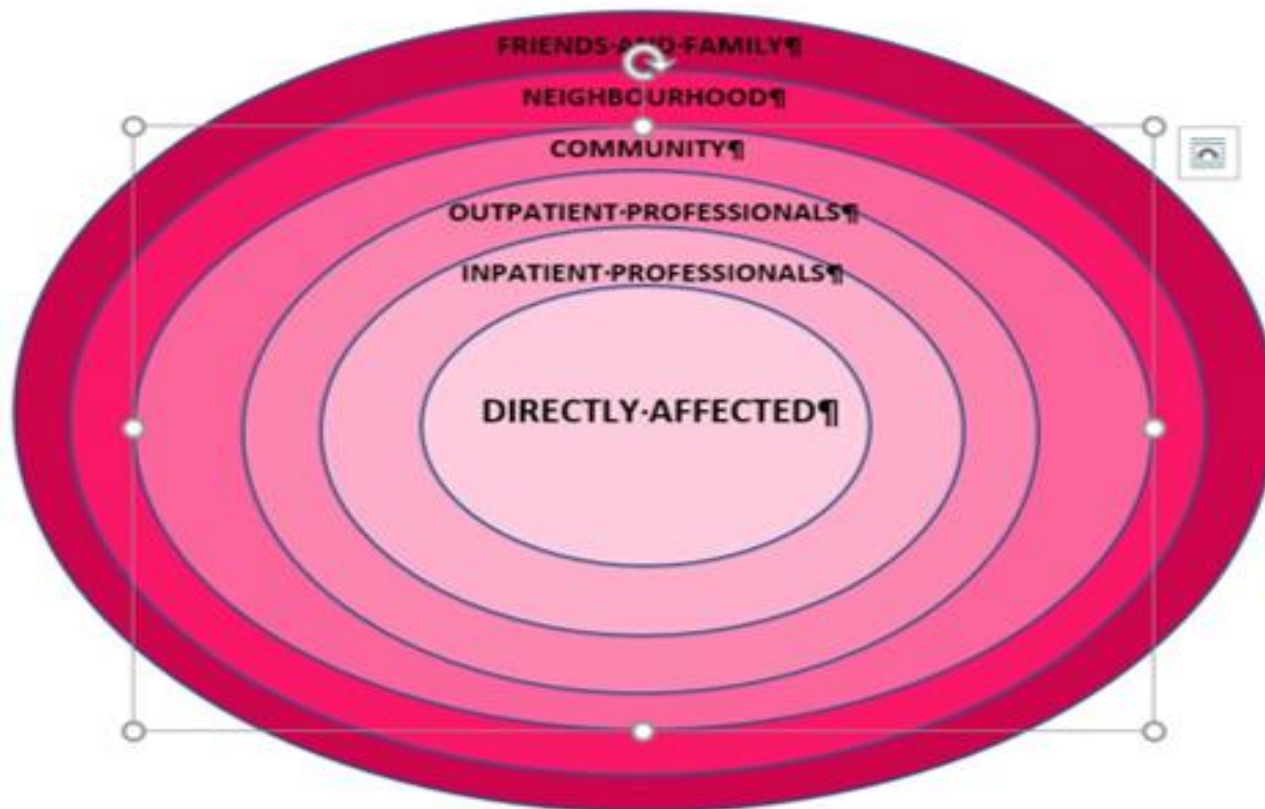

# SOME RECOMENDATIONS

- Combine the various disciplines with an assisting approach
- Step together with your service users in a meta position and after analysing have a look together
- Create a supportive network – search for helpers
- Include family members, doctors, friends, therapists, priests, barkeeper, .....
- This shows the importance of the multidisciplinary approach

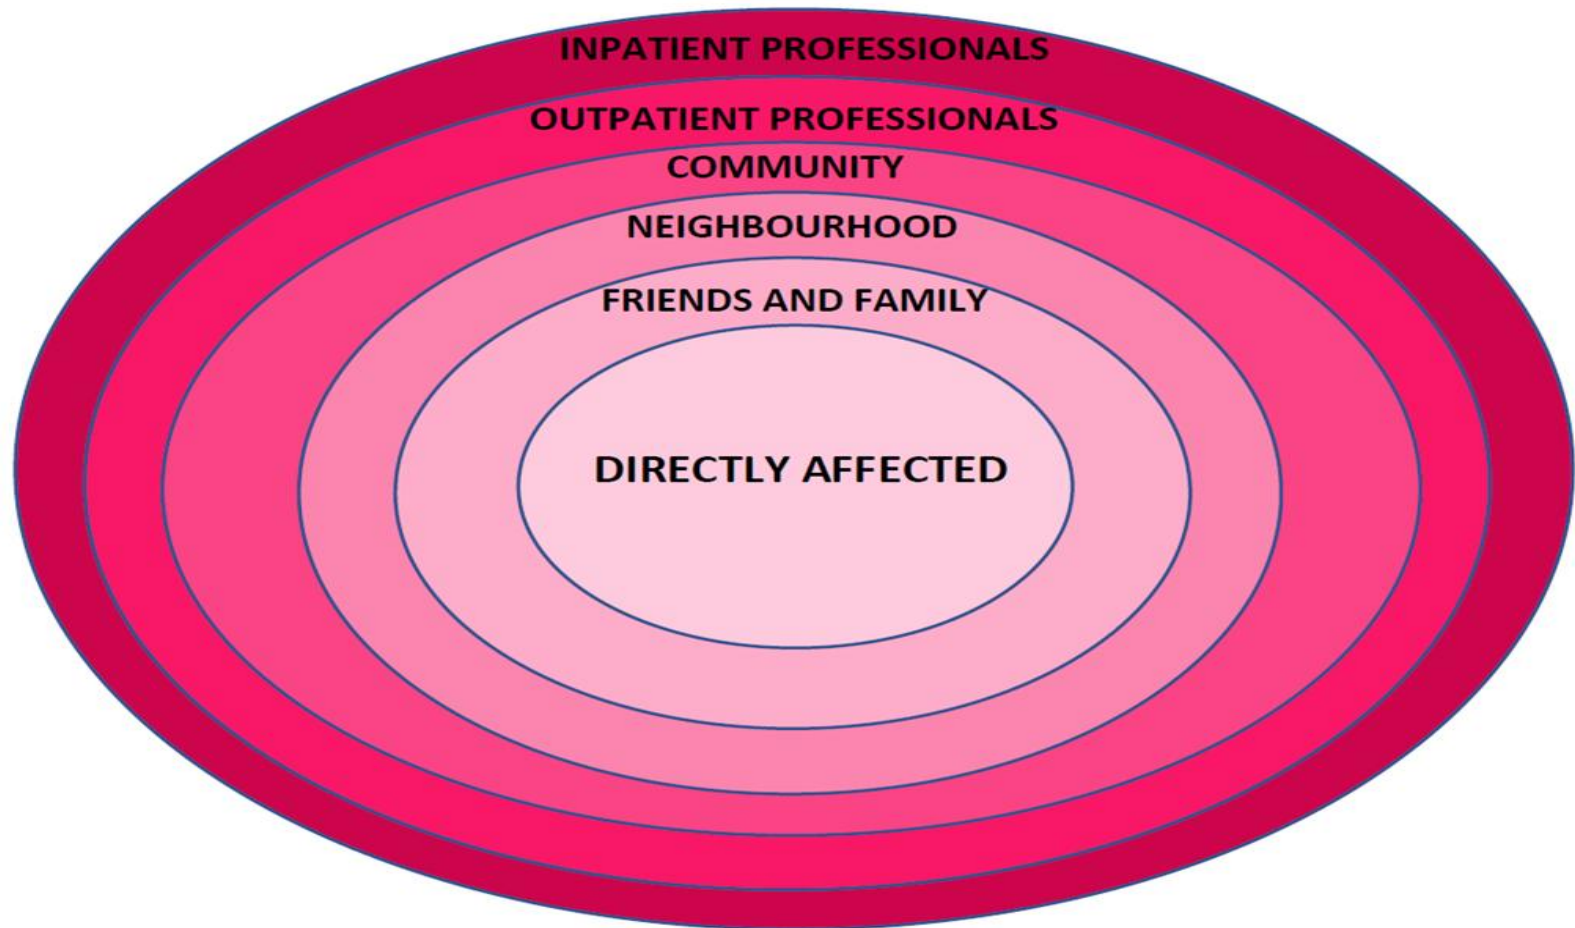

# SUPPORTIVE NETWORK

# OLD STYLE

# NEW STYLE

# PRACTICE

- Visualise it
- Create a form together with your service user
- Take a holistic and comprehensive anamnesis across professional boundaries
- Do the reviews together with your service user
- Keep the poster in a safe place and refer to it again in each coaching session and make the progress visible
- It is a kind of work agreement

# CONNECTED MULTIDISCIPLINARITY IS SUPPORTING INCLUSION AND PARTICIPATION

## Thank you
