

The first Solar + Storage España occurred on May 10-11, 2023, at the World Trade Center in Barcelona, Spain. We extend our gratitude to those who contributed to its success - the organizers, exhibitors, sponsors, speakers, and attendees. As a result of the knowledge gained, connections made, and inspiration sparked, we look forward to Solar + Storage España in 2024, which will continue to impact the solar and storage industry in the Spanish market.
